CAREER OBJECTIVE

Developed a responsive website during my internship/college project, focusing on both front-end design and basic back-end functionality. The project involved creating an interactive user interface, managing product data, and ensuring smooth user experience.

EDUCATION

Bachelor of Science (B.Sc), Computer Science
Islamiah College (Autonomous)

2023 - 2026

PORTFOLIO

[Portfolio link ↗](#)

SKILLS

- HTML 5
- CSS
- JavaScript
- React

EXTRA CURRICULAR ACTIVITIES

- Completed internships at Vaayusastra Pvt. Ltd and Asparysis, gaining practical experience in web development and software technologies. Worked on developing an e-commerce website, focusing on front-end design and basic back-end functionality. These experiences helped me strengthen my programming, responsive design, and problem-solving skills.
